Department of Public Health
A Healthy Place to Live, Work, & Play

Rose Mary Rahn
Director

Milton Teske, M.D.
Health Officer

To promote and protect the health and well-being of Kings County residents through education, prevention, and intervention.

Public Swimming Pool/Spa Chemistry Log Sheet

Please use this chart to record pool chemistry reading as well as any service and maintenance activities. Chlorine and pH readings must be taken and recorded at least once every day that the pool is open (more often is the pool is heavily used). **Free Available Chlorine (FAC) must be between 1.5 and 5 parts per millon; pH must be between 7.2 and 8.** Please contact us if you have any questions regarding the operation of your pool. **A DPD test kit must be used to measure FAC.** Please be sure you are using the correct kit. **OTO kits are not acceptable.**

Date	Time	Free Chlorine Level	pH	Amount (oz/lbs.) of Chlorine Added	Amount (oz/lbs.) of Muriatic Acid Added	Maintenance (Back Wash Filters, Service to Equipment)
