INSPECTION REPORT FOOD VENDING PERMIT - NONPROFIT

Facility Name		Facility Address		City/State	Zip Code
CINNAMON ELEMENTARY		500 E CINNAMON DR		LEMOORE, CA	93245
Owner/Operator		Facility Phone No.	Inspection ID	Inspection Result	
			54442	Pass	
Inspector Name	Inspection Date	Purpose of Inspection		Permit License	Expiration Date
Lindsay Hullinger	2/4/2025	Routine Inspection		PR0006095	8/31/2025

An inspection of your facility revealed the following violations of the California Health and Safety Code and/or California Code of Regulations. A reinspection may occur at any time to verify correction of these violations. Please note the date of correction as listed per violation.

NVO = No Violation Observed OUT = Out of Compliance N/A = Not Applicable COS = Corrected On Site UD = UD

Violation Status	Violation Code	Violation Summary	Observation
FDA Food Code 2017			
<input type="checkbox"/> -Select- <input type="checkbox"/> IN <input checked="" type="checkbox"/> OUT <input type="checkbox"/> N/A	55 - PHYSICAL FACILITIES - Physical facilities installed, maintained, and clean	<p>The range hood is observed with mild dust / grease build up. The service tag says it was last serviced in January 2023. Grease and dust build up could contribute to a fire hazard. Please ensure the range is professionally serviced and a new sticker attached.</p> <p>The dishwasher is currently out of service and the dishes are washed by hand in the 3 compartment sink. This is adequate for sanitizing, however, the unused equipment may provide a nesting spot for pests, rodents, or vermin. Please consider removal or repair.</p>	Repeat: No Corrected On-Site: No Comply By: 08/04/2025 Degree of Violation: Minor

INSPECTION REPORT

FOOD VENDING PERMIT - NONPROFIT

Overall Inspection Comment:

Food program manager certificate belongs to Kimberly Jobe (expires 09/12/2026) who is the person in charge today.

All walk-in and reach in refrigerator/freezers measure below 41F. Food is observed stored at least 6 inches off the ground and is covered to protect from contamination. All milk refrigerators also measure below 41F. Hot holding items for lunch are measured at 161F. Frozen meat is observed thawing in a pan on the bottom shelf of the walk-in refrigerator.

Handwash sinks and bathroom sinks have hot water, but can mix cold water to reduce the temperature to 100F-108F for handwashing. All are observed stocked with soap and single use paper towels.

The three compartment ware washing sinks has hot water measuring 132F. The sinks are properly set up for wash-rinse-sanitize. Chlorine/bleach is used as a sanitizer. Test strips are available and the sanitizer in the bucket is 100 ppm.

Employees are observed with good hygiene and using gloves while preparing food. Hair is secured.

All food contact surfaces are observed clean and free of debris build up.

Please see the above noted minor violation regarding physical facilities. Please have the range hood cleaned before the next term inspection, where we will follow up.

Overall, this facility is observed with good managerial control. The facility as a whole is observed with clean floors, clear floor sinks, and appropriate refuse disposal. No evidence of pest or vermin presence is observed.

Thank you!

ATTENTION: There are a total of 1 item(s) marked above in violation. Total Major violations are 0.
